

Should We Treat Some  
Patients with Durie Salmon  
Stage IA MM?

M.-V. Mateos Salamanca-Yes

S Lonial Atlanta-No

# Definition of Stage IA

- All of the following
  - **Ca<sup>++</sup>** < 11 mg/dL
  - **Renal Creatinine**<177μM/L
  - **Anemia Hb**>100g/L
  - **Bone Survey**: normal or porosis or solitary lesion
  - **IgG**< 50g/L
  - **IgA**< 30 g/L
  - **Urinary Light Chain** < 4 g/day

Is there a role for  
chemoprevention in evolving  
MM?
